

Agriculture & Livestock

Small-scale farmers work hard but their yields are low. Their land is often poor and most cannot afford the equipment and animals they need. Furthermore natural disasters often wipe-out livestock, which are a vital part of their livelihood.

Muslim Hands has initiated various agricultural aid schemes supporting poor farmers to replenish livestock levels, improve their harvests and generate incomes for their families.

How your donations helped

- **9 needy families** replenished with **livestock** after Pakistan floods
- **200 needy families** receive **agriculture tools & seeds** in Mozambique
- **5000** people benefitted from **livestock replenishment in Ethiopia**
- Ongoing programme of **livestock replenishment in Assam, India**

Small loans £100 for Rickshaw

28 year old Abdul Salam is a poor landless labourer from Assam, one of the poorest areas in India.

Thanks to your kind donations, he is now the proud owner of his own rickshaw. Alhamdulillah, his rickshaw service helps him provide for his family of seven.

30 such rickshaws were purchased for poor labourers in Assam this year.

Furthermore, any loan repayments made by the rickshaw drivers will be used to help purchase more rickshaws. The scheme will hence help more and more people over the coming years!
