

EDUCATION FOR ALL

SCHOOLS · MADRASSAS · TRAINING · YOUTH DEVELOPMENT

There are over 1 billion illiterate adults in the world today. To be illiterate in modern times is to live in a hostile and confusing world. Illiteracy closes the doors of opportunity especially in terms of employment and opens the doors to

oppression and abuse of the poor. Much of Muslim Hands's long term aid work is based around education and training, and forms an integral part of our worldwide development programmes. (See examples below)
