

Muslim Hands 1993-2003

A DOORWAY OUT OF POVERTY

Looking back at our work over the past year is, on one hand, a saddening reminder of the tremendous suffering millions of poor people have endured, but is also a reminder of the tremendous good and alleviation your generous donations have brought. Your support has allowed MH to reach and help tens of thousands of war and disaster stricken people and countless other impoverished communities to make better lives for themselves.

Now in our tenth year of service, MH has made tremendous progress since 1993, in providing for you the most efficient and effective method for giving to the needy, wherever they may be. Despite working in more than forty countries and raising over £3 Million for good causes, MH employs only 16 staff in our head office in Nottingham, and thanks to your Gift Aid declarations, does not rely on your donations for expenses such as salaries etc. making more of your donation reach the poor.

Finally, in an effort to keep costs down, this feedback report covers only a small portion of our work. You will find extra photographs and reports at our website. Please share this report with your family and friends and help us continue this good work.
